<b>TITLE</b>	IOT BASED SAFETY GADGET FOR CHILD SAFETY MONITORING AND NOTIFICATION
<b>DOMAIN NAME</b>	INTERNET OF THINGS
<b>TEAM ID</b>	PNT2022TMID17380
<b>LEADER NAME</b>	BALAKUMAR P
<b>TEAM MEMBERS NAME</b>	DHINESHKUMAR P SRISIVA M ABISEK P
<b>MENTOR NAME</b>	M.PARVATHI

## PROGRAM :

```
import random
temperature=random.randint(1,100)
humidity=random.randint(1,100)
print("Temperature =",temperature)
print("Humidity =",humidity)
if(temperature<15): print("Temperature is normal")
print("Humidity is normal")
print("Alarm Off") elif(temperature>15) and (temperature<59):
print("Temperature is normal")
print("Humidity is normal")
print("Alarm Off") elif(temperature>59):
print("Temperature is normal")
print("Humidity is normal") print("Alarm Off") else:
print("enter the correct value")
```

## PROGRAM AND OUTPUT:

The screenshot displays the Programiz Python Online Compiler interface. The left sidebar contains icons for file management and a file list with 'main.py' and 'JS'. The main editor area shows the Python code from the previous block. The right panel, titled 'Shell', shows the output of the program: 'Temperature = 67', 'Humidity = 69', 'Temperature is normal', 'Humidity is normal', and 'Alarm Off'. A 'Clear' button is located next to the shell title. At the bottom right, there is a watermark that says 'Activate Windows Go to Settings to activate Windows.'
