**IOT BASED SAFETY GADGET FOR
CHILD SAFETY MONITORING AND
NOTIFICATION**

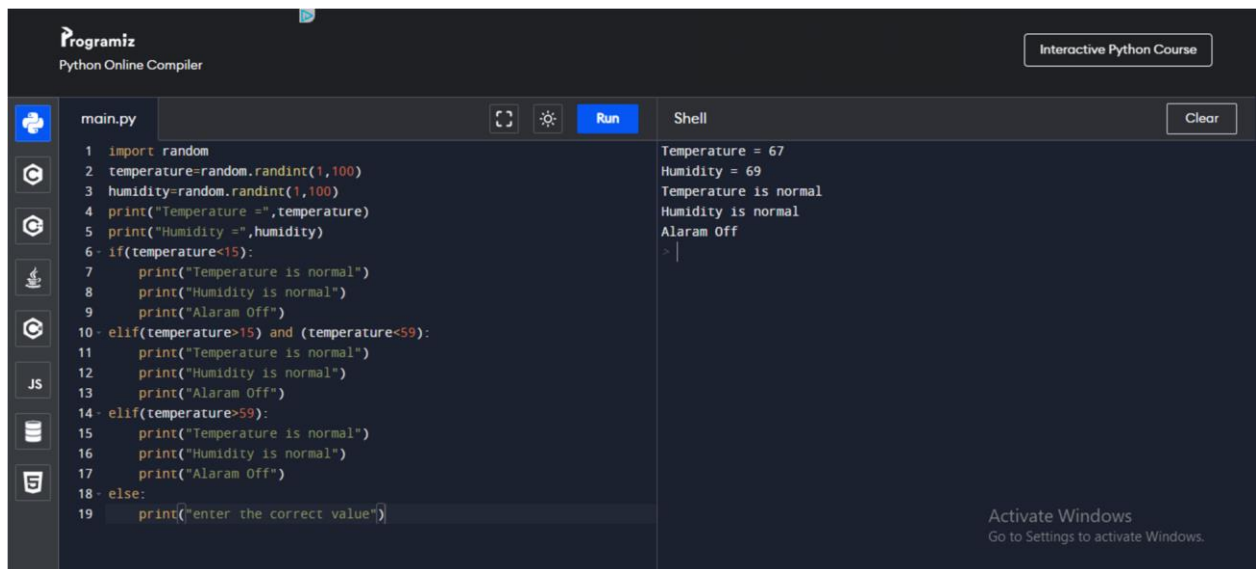

IBM NALAIYATHIRAN

TITLE	IOT BASED SAFETY GADGET FOR CHILD SAFETY MONITORING AND NOTIFICATION
DOMAIN NAME	INTERNET OF THINGS
TEAM ID	PNT2022TMID17380
LEADER NAME	BALAKUMAR P
TEAM MEMBERS NAME	DHINESHKUMAR P SRISIVA M ABISEK P
MENTOR NAME	M.PARVATHI

PROGRAM :

```
import random
temperature=random.randint(1,100)
humidity=random.randint(1,100)
print("Temperature =",temperature)
print("Humidity =",humidity)
if(temperature<15): print("Temperature is normal")
print("Humidity is normal")
print("Alarm Off") elif(temperature>15) and (temperature<59):
print("Temperature is normal")
print("Humidity is normal")
print("Alarm Off") elif(temperature>59):
print("Temperature is normal")
print("Humidity is normal") print("Alarm Off") else:
print("enter the correct value")
```

PROGRAM AND OUTPUT:

The screenshot displays the Programiz Python Online Compiler interface. The left sidebar contains icons for file management and a file list with 'main.py' selected. The main editor area shows the Python code from the previous block. The right panel, titled 'Shell', shows the output of the program: 'Temperature = 67', 'Humidity = 69', 'Temperature is normal', 'Humidity is normal', and 'Alarm Off'. A 'Clear' button is located next to the shell title. At the bottom right, there is a watermark that says 'Activate Windows Go to Settings to activate Windows.'
