Project Name	Project – IOT Based Child Safety Gadgets Monitoring and Notifications
Maximum Marks	2 Marks

Customer Problem Statement:

There are multiple news-sharing apps used by a single user and are often spammed with notifications. There is also a lot of fake news which gets shared. A news-sharing app wants to help users find relevant and important news easily every day and also understand explicitly that the news is not fake but from proper sources.

While Opening app for reading a news, I'm literally getting too much of advertisements in-between the content because of these ads I was unable to read the content properly and it makes me feel irritated, App wants to help users find relevant and important news easily every day and also understand explicitly without the ads.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Searching for	Find the	The cost of the	It shows a incorrect	It's make some
	up to day	technology on	gadget was not	location and	tracking confusion
	news about	trend	effectively	insufficient battery	
	child safety		Sufficient to use	life	
PS-2	Searching for	To get the	I couldn't able to	There are so many	It's make a lot of
	up to day	child safety	get proper	fake equipment's	confusion to buy the
	news about	Equipment's	network	are shared over the	Safety gadget
	child safety		connection	internet
